

## Autosampler Compatability Chart

Verex vials that are compatible with various models of autosamplers as indicated in the table. Certain autosamplers require the purchase of optional vial trays and, in few a cases, programming upgrades to use all of the vials listed. An **X** mark indicates that the vials from this category are compatible with the autosampler in most configurations. **Flanged** indicates that a cap having an outer flange is required for the vial to operate properly with the autosampler. **Magnetic** indicates that a magnetic seal is required for use with the autosampler.
